Emb-A-Seal™

Call us on 13 62 63 or visit www.bnd.com.au for the complete range of B&D products and accessories.

FEATURES

- Seals are designed to work in conjunction with a door to frame gap of up to 38mm for rolling doors and 16-17mm for sectional overhead doors.
- Caters for both sectional overhead and rolling doors.
- Available in both single and double door sizes.
- Superior gap filling ability ensures that a solid barrier to entry is created around the door, reducing the risk of embers flying in.

- Manufactured from flame retardant material.
- Seals also act as a barrier to decreasing the amount of dust, sand or leaves entering the garage, creating a cleaner environment.
- Coverage of the rolling door seal can be adjusted to perfectly suit the application thanks to patented tear off system. International patent number: PCT/AU2005/001354.
